RESEARCH EXPERIENCE

Task Specialized LLM System for Financial Queries, *NYU Stern*, New York, NY

Sep 2024 – May 2025

- Senior honors thesis supervised by Professor João Sedoc, studying LLM's ability to answer financial queries.
- Developed an agentic LLM system that answers complex queries via hypothesis generation and exploration.
- Proposed "Research Tree" framework, combining ReAct and Tree of Thoughts to explore generated hypotheses.

Research Assistant – Corporate Finance, *National Bureau of Economic Research*, New York, NY Jan 2024 – Jan 2025

- Assist Professor Ge's research on idiosyncratic investor shocks' impact on borrowing firms through the CLO market.
- Matched datasets (~500K firms), analyzed firm's financing decisions and outcomes from capital flow to CLO market.

WORK EXPERIENCE

Finance & Product Intern, *LawAdvisor*, London, England

Sep 2023 – Nov 2023

- Built Excel models to project cash flows for the startup's Legal Tech products.
- Performed account reconciliations using Xero and Excel, benchmarked salary data with industry standards.

Software Developer Intern, *Thinkland*, Princeton, NJ

June 2020 – Aug 2022

- Created a Learning Management System (LMS) using PHP with product team.
- Developed a scheduling algorithm for admins to schedule and assign teachers (>200 classes per week).
- Deployed automated payment tracking system using Azure Automation.

LEADERSHIP/TEACHING EXPERIENCE

Teaching Fellow for Projects in Programming & Data Science, *NYU Stern*, New York, NY

Jan 2025 – May 2025

Teaching Fellow for Corporate Finance, *NYU Stern*, New York, NY

Jan 2024 – May 2024

Founder & Coding Teacher for Children, [AiGoLearning.org](https://aigolearning.org)

Aug 2020 – Oct 2022

- Founded a nonprofit that hosts online coding classes for ~6,000 students, taught by high school and college students.
- Developed course curricula, trained student teacher applications, led national hackathons, taught classes since 2020.

VOLUNTEER EXPERIENCE

VoteEasy: Know Your Candidates

May 2023 – Nov 2024

- Created Civic tech tool that maps local officials and candidates to voters using Federal Election Commission data
- Developed LLM system that reasons and predict users' and candidates' alignment on political issues.
